OBJECTIVE

Data Analyst

Data Analyst with 12 years building analytical solutions in financial and operational contexts — ETL pipelines, predictive credit models, KPI dashboards, and process automation — before formally holding the title. Now working in the role with a stack in Python (Pandas, Tkinter, OOP), SQL (MySQL, SQL Server), Power BI, and end-to-end ETL. Self-taught profile with consistent and proven technical progression, combining deep business domain knowledge with data engineering capability, focused on delivering solutions with direct impact on strategic decisions.

PROFESSIONAL EXPERIENCE

03/2025 - Present

Data Analyst

Moavi

- Performed ETL processes (data extraction, transformation, and loading)
- Structured operational data and generated .CSV files
- Integrated with genetic algorithm systems for schedule optimization
- Developed Python automations (Pandas, Tkinter)
- Built modular systems with GUI for batch processing
- Reduced processing time from over 1 day to a few hours
- Conducted system validation and proposed improvements
- Collaborated using GitHub, Django, and Vue.js (supporting development team)
- Worked remotely with high autonomy, organization, and collaboration
- Applied AI tools to improve productivity and problem-solving

02/2024 - 09/2024

Financial Analyst

Grupo Neoguard

- Analyzed revenue, expenses, and financial KPIs (operational and net)
- Evaluated profitability, costs, debt levels, and delinquency
- Structured and optimized cash flow processes
- Supported decision-making focused on financial efficiency and investments
- Implemented 3 management systems (ERP/operations)
- Performed ETL using Python (SQL Server → processing → MySQL)
- Developed data models in MySQL
- Built dashboards in Power BI
- Centralized and improved data quality
- Delivered data-driven strategic insights

11/2022 - 11/2023

Financial Manager

Grupo Brasil Slim

- Built the financial structure from scratch (cash flow, controls, reconciliation)
- Managed banking relationships, credit, debt, and renegotiations
- Optimized financial rates and contracts (POS machines/cards)
- Regularized tax liabilities
- Developed Excel-based management reports
- Ensured financial sustainability and operational continuity

03/2018 - 05/2021

Administrative Financial Manager

Sicredi Centro Sul PR/SC/RJ

- Conducted credit analysis (capacity, risk, guarantees, scoring)
- Managed treasury, compliance, and audits
- Led people, infrastructure, and branch operations
- Automated credit analysis using spreadsheets
- Acted strategically in financial decision-making and risk control

05/2012 - 12/2015

Junior Financial Analyst

Fábrica Boechat Ltda.

- Managed billing, accounts payable, and cash flow
- Performed debt analysis, financial projections, and reporting
- Applied ABC Curve, Pareto analysis, and linear regression
- Used Excel/Calc for automation and data analysis
- Supported decision-making and supplier negotiations

08/2007 - 09/2011

Financial Planning Coordinator

FAPUR

- Managed invoicing, taxes (INSS/FGTS), and financial routines
- Controlled budgets and financial execution of projects
- Developed Excel tools for automation and balance tracking
- Trained teams and supervised interns

EDUCATION

- 04/2023 - 09/2026 **Bachelor's: Data Science**
Estácio de Sá University
- 01/2019 - 07/2020 **MBA: Strategic People Management**
Estácio de Sá University
- 06/2012 - 12/2013 **MBA: Strategic Business Management**
Centro Universitário Redentor
- 06/2006 - 08/2010 **Bachelor's: Business Administration**
UFRRJ
-

CERTIFICATIONS

- Google Data Analytics, Google/Coursera, 05/2025
 - Data Analysis with R, Estácio, 03/2025
 - Python Application Development, Estácio, 10/2024
-

IDIOMAS

English: advanced

TECHNICAL SKILLS

- Python
 - SQL
 - Power BI
 - Microsoft Excel
 - ETL
 - Data modeling
 - Exploratory data analysis
 - Data visualization
- MySQL
 - PostgreSQL
 - Microsoft SQL Server
 - System integration
 - Python scripting
 - Automated reporting
 - ERP & Business Systems
